Virtual Ceremony

Welcome MESSAGE

It was my very great pleasure to welcome each and every one of you to this very special 17th anniversary of Seatrade Maritime Awards Middle East, Indian Subcontinent and Africa Awards – held for the first time completely virtually and allowing us to share this landmark occasion with industry friends and colleagues globally.

On behalf of Seatrade and Informa Markets, I would like to thank all those who have supported this scheme and for sharing this special occasion with us.

The 2020 virtual edition might have taken place online, but our awards are very much in celebration of the achievements of the resilience of the maritime industries of the Middle East, Indian Subcontinent and Africa, to continue to operate and, in some cases grow, in these unprecedented times.

The Seatrade Maritime Awards have been supporting, recognising and rewarding the progress made for the past 17 years. Of course, a huge amount has changed over that time in market conditions, new technologies and regulatory challenges. Yet the message from these Awards is that the industry in the region continues to rise to the challenges it faces, with tenacity and ambition.

Each year, the Seatrade Maritime Awards attract a high number of entry submissions, with this year nearly 100 entries submitted. In this special 2020 virtual edition, the Awards recognised nine winners in a shortened and more focussed celebration including a special award for 2020 recognising an exceptional response to the challenges posed by the pandemic.

The core categories encourage the pursuit of excellence in a range of areas, including sustainability, Intelligent Shipping and Logistic Solutions. It is also part of the role of the Seatrade Maritime Awards to recognise exceptional contributions from individuals

through a sequence of Personality Awards, with the winners chosen by Seatrade's editorial board and this year introduces a new award for Diversity & Equality.

2020 once again also saw leading individuals from the industry lend their time and expertise generously to judge the submissions in these core categories. We would like to extend our thanks to the high-calibre independent judging panel comprising of 17 judges for their time, tireless dedication and efforts involved. We would also like to extend our personal thanks to Chair of Judges, Tony Field, President - Middle East & Africa Marine & Offshore, Lloyd's Register for the support and contribution in his first year within the role. We look forward to receiving his feedback and ideas for how we can continue to improve and grow the process over the coming 12 months.

We would like to offer our congratulations to all those who submitted entries for the Awards this year including our winners.

Lastly, I would like to express our sincerest thanks to all of our sponsors for their incredibly generous support of the event: ADNOC Logistics & Services, Abu Dhabi Ports, Aries Marine & Engineering Services, DP World UAE Region, Drydocks World, Tomini Shipping and Tristar Group. And, of course, the supporting partners which include: Arab Women in the Maritime Association (AWIMA); Institute of Chartered Shipbrokers, Middle East Branch; Institute of Marine Engineering, Science & Technology UAE Branch; INMEX SMM India; Young Ship Dubai; Arab Academy for Science, Technology & Maritime Transport in Sharjah (AASTTS) and The Mission to Seafarers who is once again our Official Charity.

We hope you enjoyed this year's virtual ceremony, and we look forward to welcoming you back in 2021 – where we very much hope to see you all in person.
